

welcome

Fieldfare (*Turdus pilaris*)

LNHG is an active and friendly local natural history group based within the Lorn region of Argyll. We hold regular walks, talks and events for our members and the public.

 Join us for our [Saturday field trips](#), open to members and non-members alike. Explore new sites and improve your identification skills.

 We also hold [Monthly talks](#) all year round, normally on the second Tuesday of each month at Seil Island Hall, Ellenabeich.

 Browse our website for more information including how to [join LNHG](#), [field trip reports](#), our [photo gallery](#) and our [latest news](#).

 Get in touch with us using our [contact form](#), through [facebook](#) or by [email](#).

Dark Green Fritillary (*Argynnis aglaja*)

Lorn Natural History Group is the Biological Records Centre for Main Argyll (vice-county 98) and records, collates and provides data for the region.

✘ Our recording area, [VC 98 Main Argyll](#), covers much of mainland Argyll. We are trying to increase the amount of data we have from under-recorded areas.

✘ You can [submit your records](#) to us in a wide variety of ways – every record matters! Not sure of your grid reference? – use our [find a grid reference](#) tool.

✘ Find out more about the [Scottish Biodiversity List](#) of flora, fauna and habitats, the [EU Habitats Directive](#) and [Invasive Non-Native Species](#).

(VC98)**

[Article of the Week](#)

Each week a new article will appear here relevant to the time of year. It will also be posted on our [LNHG Facebook Group](#) with the opportunity to make further comment and add any records that you may have seen locally as sightings are important.

Scarlet Pimpernel
(Anagallis
arvensis)

Field Trip Reports

View recent and archived reports of species seen on some of our previous field trips, along with photos.

Chequered Skipper (Carterocephalus palaemon)

Photo Gallery

We have built up a collection of photos of local species to help you identify your finds. Browse them by category.
